

The Continuum Track is a 2023 LIT Lighting Design Award Winner

City of Industry, CA – 12.5.23 – ET2 Contemporary Lighting, a pioneer of cutting-edge design, is thrilled to announce that its groundbreaking Continuum Track collection has been honored with the prestigious [2023 LIT Lighting Design Award](#). Recognized as the next generation for track-lighting, Continuum's cutting-edge design and innovation have propelled it to the forefront of the lighting industry.

The Continuum boasts an ultra- slim surface mount that seamlessly blends into a space resembling recesses and making it the ideal choice for both wall and ceiling. Awarded for its versatility, unrivaled functionality, and vast offering of quick, snapped on lights, the Continuum has set a new standard for contemporary lighting.

The LIT Lighting Design Awards recognize the outstanding contributions of skilled designers. Highly competitive with a rigorous evaluation from their jury panel, the LIT Design Awards celebrate excellence in design and innovation, showcasing a diverse range of creative solutions that push the boundaries of aesthetics and sustainability.

As an industry leader, ET2 Contemporary Lighting continues to inspire and redefine the modern lighting design world. See the entire Continuum Track collection [here](#).
